Celebrate the wonders of the natural world in your own classroom!

Take one of our TEKS aligned and engaging Educator Workshops offered at Moody Gardens. Learn various tools and techniques that can help to enrich your curriculum, as well as how Moody Gardens can bring your lessons to life.

Non-members: \$55

Members: \$45

Lunch included

Can earn up to 6 CPE hours depending on the workshop

Available to all educators including college students and home school facilitators

Private workshops available

Need a team building event for your staff? Register your group for a Private Workshop.

Call us for a full list of available workshops and other opportunities we can offer your group!

★ **NEW!**

Engaging Through Story Telling

Bringing Interpretation and Personal Experiences into the Curriculum

January 18th, 2020, 10:00-3:00

Personal experiences from both teachers and learners can be an excellent way to implement inquiry and critical thinking. Learn to facilitate a culture of curiosity in our new workshop that highlights the value of storytelling and interpretation in the classroom.

★ **NEW!**

Nature is Neat!

Bring Biomes in the Classroom

March 21st, 2020, 10:00-4:00

Talking about environmental science is one thing... but making nature a part of your daily lessons is another thing entirely! Build and learn several sustainable practices and techniques that can easily be used in your own classroom to bring the wonders of nature inside!

★ **NEW!**

From East to West

Teaching Empathy Through the Lens of Culture

June 10th, 2020, 10:00-3:00

Learn to instill a culture of empathy and understanding in your classroom by dissecting various cultural traditions that are vastly different than our own. By integrating these investigations, students will inherently gravitate towards a questioning rather than confusion.

★ **NEW!**

The Power of Plastics

An Introduction to Marine Debris

July 26th, 2020, 10:00-4:00

Get a hands on experience on the impact of plastic pollution with a beach clean-up and in-depth workshop on the visible debris that we can see that is impacting the ocean and our waterways, as well as the less visible threat of microplastics.
